

IS THIS THE END OF THE LINE FOR PUBLIC TRANSIT?

Our public transit system is in crisis. The current funding scheme fails the system. Transit agencies plan to raise fares and cut service. Riders, workers, and communities are under attack. **Stand up! Fight back!** Tell the Legislature, the Governor and MassDOT it's time to **fix it, fund it, and make it fair.**

FIX IT

Riders and workers are experts on our transit systems.

Our say on the shape, structure, and priorities of our transit systems will make them better.

FUND IT

Don't balance the budget on the backs of riders and workers!

Dedicate a sufficient, sustainable, and progressive funding source for the transit system we need throughout the state.

MAKE IT FAIR

Transit is a public utility that can bring us together.

If we invest in a system to connect us, we will start overcoming long legacies of inequalities based on race, economic class, citizenship, and region.

PUBLIC TRANSIT IS A PUBLIC GOOD.

THIS IS NOT THE END OF THE LINE.

Wednesday, May 16th • 11AM • Statehouse Steps

Riders and workers from across the State—Boston, Springfield, Fall River, and New Bedford—will gather to launch the Green Justice Coalition's campaign, Public Transit–Public Good.

Leaders will speak out FOR fair short-term fixes and meaningful long-term solutions and AGAINST regressive proposals across the state to hike fares and cut transit service. Street theater will highlight the impacts of inadequate transit funding and service on our communities.
